

**INDUSTRIAL AIR
FILTRATION**

BAGHOUSE ACCESSORIES & COMPONENTS

ENSURE EMISSIONS- FREE OPERATIONS WITH BAGHOUSE ACCESSORIES

Add auxiliary technologies to instantly measure baghouse pressures, identify baghouse leaks, a failed solenoid, or a problematic diaphragm.

KEY BENEFITS

PREVENT DOWNTIME

Keep operations running with baghouse technology.

IMPROVE ROI

Real-time diagnostics provide early warnings so you can immediately address issues.

GAUGE AIR PRESSURES

Uncover complications in the baghouse with pressure gauges.

DISCOVER VALVE ISSUES

Identify which valves need to be replaced.

FEATURES

- Timer boards offer dedicated dust monitoring, early warning leak detection, better control, and realtime diagnostics.
- Technically advanced sequential timer boards incorporate pressure switch controls and automatic blow downs.
- Measure air velocity, fan and blower pressures, filter resistance, and differential pressures with gauges.
- Replacement solenoid and diaphragm valves and repair kits.
- All style of clamps and hooks available for reverse air baghouse systems.
- All parts fit any baghouse to specification.
- 40+ years of industry experience.

APPLICATIONS

- Industrial Air Filtration
