

INTRODUCING Defender™ Heat Blanket PREMIUM HEAT PROTECTION

Albarrie's Defender™ Heat Blanket is the perfect solution for extreme temperature applications.

The Defender™ Heat Blanket blanket is made of a proprietary material, which is specifically designed to withstand high temperatures and protect people, capital goods, and the environment. With the use of Albarrie's Defender™ Heat Blanket, you can rest assured that you are using a reliable and effective product that is trusted by many.

FEATURES

- Provide ultimate protection during high-heat conveyance.
- Contribute to a safer working environment
- Designed for extreme temperature applications

APPLICATIONS:

- Annealing Furnace - heat shields & insulation
- Aging Ovens for aluminum extrusion - heat shielding & insulation
- Industrial - heat resistant gaskets & thermal insulation for pollution control equipment
- Aerospace - fireproof & acoustic insulation
- Automotive - heat resistant gaskets & thermal insulation for exhaust systems

KEY BENEFITS

HIGH TEMPERATURE RESISTANCE

Supports application temperatures up to 1992°F (1050°C).

ECO-FRIENDLY & RELIABLE

Defender™ Heat Blanket materials prioritize reliability and sustainability.

WORK SAFE

A safer option that replaces fiberglass.
