& CONVEYANCE**

DEFENDER™ HEAT FELTS

ROLLER COVERS

KEEP PROFILES FROM THE SCRAP PILE

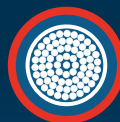

Albarrie's nonwoven fabric conveyor roller covers **protect surface-critical** products from markings during conveyance, saving valuable products from damage.

KEY BENEFITS

EXCELLENT PROTECTION & NON-MARKING

Albarrie's Defender™ Series Heat Felts Won't mark your products during conveyance.

HIGH DENSITY

Defender™ Series Heat Felts offer more fiber per square inch, giving you a longer-lasting product.

EXCEPTIONAL SERVICE LIFE

Improved service life compared to other products on the market.

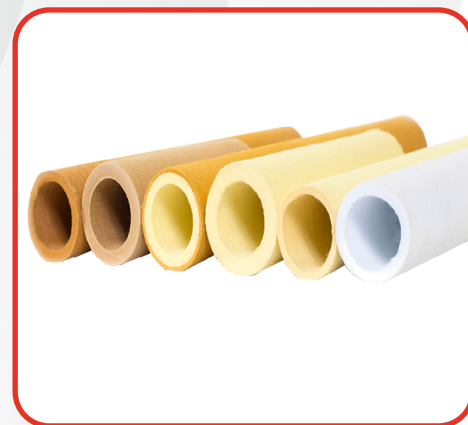

WIDE CONTACT TEMPERATURE RANGE

Supports applications with temperatures up to 1020°F (548°C).

FEATURES

- Protect surface-critical products.
- Keep profiles from the scrap pile.
- Provide ultimate protection during high-heat conveyance.
- Can absorb or apply liquids to materials more evenly than conventional rollers, depending on the application.
- Each roller cover is made to order ensuring a precise fit.
- Offer a wide range of fabric and coating combinations.
- Non-marking, easy to install and seamless design.
- Wide temperature range (260°F - 1020°F).
- Will not fray or unravel like seamed or woven covers.
